

Issue Report

Site quality report for https://www.compleohealth.com/news-and-views produced on September 8, 2025.

Overall Quality		1 pages with quality issues
Accessibility		1 pages with accessibility problems
Totals		13 URLs checked

Accessibility

This section shows accessibility issues, indicating problems for older users, people with disabilities or accessibility needs. Automated testing cannot detect all accessibility issues, so should be used alongside human testing.

Level A

3 issues on 1 pages

- SVG elements with `graphic role` attributes must have an accessible name.

SVG elements with `role=img`, `role=graphics-document` or `role=graphics-symbol` need an accessible name provided by the SVG `title` element or an ARIA label.

[WCAG 2.2 A 1.1.1](#)

```
<svg stroke='currentColor' fill='currentColor' stroke-width='0' role='img' viewBox='0 0 24 24' class='h-5 w-5 text-w...' height='1em' width='1em'><path d='M20.447 20.452h-3...'></path></svg> line 364
```

```
<svg stroke='currentColor' fill='currentColor' stroke-width='0' role='img' viewBox='0 0 24 24' class='w-12 h-12 text...' height='1em' width='1em'><path d='M20.447 20.452h-3...'></path></svg> line 364
```

- This skip link is broken. The target anchor does not exist or is commented out.

The anchor after the # symbol points to a non-existent ID on this page, so nothing happens when it's clicked. In most cases the target ID has been removed accidentally and should be reinstated.

[WCAG 2.2 A 2.4.1](#)

No element with `id='main-content'`

```
<a href='#main-content'>Skip to main content</a> line 333
```

<https://www.compleohealth.com/news-and-views>

- Use semantic markup like `strong` instead of using the CSS `font-weight` property.

Use the `strong` element instead of the `span` element for bold text.

[WCAG 2.2 A F2](#)

```
font-weight: 700
```

```
<span class='text-white font...'>Latest Updates</span> line 364
```

font-weight: 700

Live Events line 364

font-weight: 700

Social Updates line 364

Level AA

2 issues on 1 pages

Ensure that text and background colors have enough contrast.

Some users find it hard to read light gray text on a white background, dark gray text on a black background and white text on a red background.

- The contrast ratio should be 3.0 or more for 18 point text, or larger
- The contrast ratio should be 3.0 or more for 14 point bold text, or larger
- The contrast ratio should be 4.5 or more for all other text

[WCAG 2.2 AA 1.4.3](#)

The text color to background color contrast ratio after composition is:

2.97 with color: rgb(255,255,255) background: rgb(0,169,144) font-size: 54pt font-weight: 700

Views line 364

2.97 with color: rgb(255,255,255) background: rgb(0,169,144) font-size: 10.50pt font-weight: 700

Latest Updates line 364

2.97 with color: rgb(255,255,255) background: rgb(0,169,144) font-size: 9pt font-weight: 700

<div class=' w-full h-full ...'>GOV.UK</div> line 364

- The CSS outline or border style on this element makes it difficult or impossible to see the link focus outline.

Do not remove the default outline style, and change any border styles to avoid obscuring the focus outline around focusable elements. See :focus-visible for more information. Using a border or outline style that obscures the focus ring causes problems for keyboard-only users in:

- Chrome (obscures the focus indicator on links, buttons, dropdowns and range controls)
- Firefox (obscures the focus indicator on links)

[WCAG 2.2 AA F78](#)

outline-color: matches background

```
<button class=' btn-base focus-...'>Follow Us on LinkedIn</button> line 364
```
